DO YOU ALREADY HAVE SIGNAL	DOES YOUR LAPTOP ALREADY RECEIVE SIGNAL <input type="radio"/> YES <input type="radio"/> NO
DO YOU HAVE ANTI VIRUS	DOES YOUR COMPUTER HAVE ANTIVIRUS INSTALLED <input type="radio"/> YES <input type="radio"/> NO

NOTES:

- Not everyone will be able to receive signal, all links are dependent on distance from transmission towers.
- Signal fade may be experienced during very hot days, as well as during thunderstorms.
- We would recommend unplugging all equipment from the power outlets to prevent damage during thunderstorms.
- Once you have purchased the equipment, it will be your responsibility to have the equipment insured, as lightning may damage the equipment if operated during storms.
- NO exchanges on units will be made due to damages caused by power or lightning related problems.
- Only factory faults will be swapped out.
- ALL computers are to have antivirus software installed.
- Terms of service available at www.winagain.co.za
